🐍 pythonicoder 🌐 Sinan Kasikci

👤 Summary

Computer and Software Engineering student with 2+ years of hands-on programming experience and a strong academic record (GPA 4.2/5.0). Developed 7+ projects and written 10.000+ lines of code using C, Python, JavaScript and React. Built low-level system programming projects including custom implementations of printf, file-reading utilities, and algorithm-focused applications. Daily Linux user with practical experience in data structures, algorithms, networking fundamentals, and software development workflows. Achieved 2nd place among 15 teams in the Codaro Google Startup Hackathon and continuously expanding expertise in Python, SQL, and scalable software engineering solutions.

📁 Projects

2023 – Present

Portfolio Website — React, JavaScript, Git

- Designed and deployed a personal portfolio website.

push_swap — C

- Implemented and optimized stack-based sorting algorithms.

ft_printf — C

- Recreated the standard printf function from scratch.

A-Maze-ing — Python

- Developed a maze-solving application using algorithmic approaches.

🏆 Achievements

- 2nd Place among 15 teams – Codaro Google Startup Hackathon
- Student at 42 Warsaw

🎓 Education

09/2025 – Present

42 Warsaw

- Project-Based Software Engineering Program
- Completed: libft, ft_printf, get_next_line, push_swap, a-maze-ing
- Python & C
- **Focus Areas:** Algorithms, System Programming, Unix Development

09/2023 – Present

Vistula University

BSc Computer and Software Engineering

Focus: Network Technologies, Software Development

GPA: 4.2 / 5.0

Skills

Programming Languages

- C
- Python
- JavaScript
- SQL

Core Competencies

- Data Structures & Algorithms
- Problem Solving
- System Programming
- Networking Fundamentals

Technologies & Tools

- React
- Git & Github
- Linux
- Bash
- VS Code

Languages

Turkish

English

Polish
